

Patentee: Shane, et al.

Patent No.: 6,855,307

Docket No.: 822001-1030

Application No.: 10/050,491

Issued: February 15, 2005

**For: Pressurized Solution Feed System For
Introducing Hypochlorous Acid
To a Fluid Stream**

Commissioner for Patents
P O Box 1450
Alexandria, VA 22313-1450

Sir:

The small entity status for the above-referenced patent was established in good faith and small entity fees were paid in good faith; however, it has been recently discovered that, after the payment of the filing fee for this application but before the payment of the issue fee, Applicant's status changed to that of a large entity and the payment of the issue fee as small entity was in error. Applicant no longer claims small entity status for the above-referenced patent.

The attached chart itemizes the type of fee that was erroneously paid as a small entity along with the current fee amount for a non-small entity, the date and the amount of the small entity fee actually paid, and the deficiency owed. Applicant authorizes the Commissioner to charge Deposit Account No. 20-0778 in the amount of \$700 to cover the difference in fees due. In the event the Commissioner determines any additional fees are due, the Commissioner is authorized to charge Deposit Account No. 20-0778.

Respectfully Submitted,
**THOMAS, KAYDEN, HORSTEMEYER
& RISLEY, L.L.P.**
